

ME crucial to world endeavors

- ME - strength -
- other areas

- We must ~~to~~ oil

+ US oil produce its own oil

+ too dependent on ME.

- Mexico cannot be trusted

Self sufficient

- Oil reserves in Central America

3. Point of disagreement

+ Political part of Int. (P.O.I.)

+ Man I C pol too fast

something for matching

NATURE of POLITICAL ISSUE -

- MIC - Elements not trust in future more

- wanted something for now

- right to be able to receive, dominate, control, a certain segment of the voter population.

- ~~want~~ too greedy

- expected fast results

- ~~Right to~~ ~~trust~~

MAN O I

- Chrys would eventually come

missile seeking base

- generating energy
definitely +

- atomic weapons will

man of interest he does
not expect too much.

BRENNON

- future race bet USSR & US will be in atomic
weapons - must be stopped -

- Energy - study - use of it of great
concern -

- man of inter - does not seem realize
extent of the impact - what is being given
to scientists

Brennon

neutral - not very powerful -

info
other services -

— good they would wait

— not wish to war.

— if run smoothly — go very well

→ Veto, with in military,

Controlled vote w/ in a structure.

→ International Implications

M I C p

Ntl level policies →

4 — Energy inside

not build

actually energy inside —

— not making or buildings — but the energy

— Energy how it can hurt or destroy

— not

— Confidence

— Elements — combination of elements

Brennon -
+ tells it like it is -
+ not loose for 2 days
+ Group of meter panel

Oman

Middle East proceeds much more
why negotiater are not resume
at faster rate. With ME trouble
not place - doubt, frustration,
